FOR IMMEDIATE RELEASE

Pet Oxygen Masks Now on Board

Woolwich, ON – Elmira Pet Products, a local manufacturing company specializing in the production of private label dog and cat food, is passionate about protecting the lives and safety of our furry family members. This month, Elmira Pet Products delivered six pet oxygen kits, along with a training program, to Woolwich Fire Services.

These kits will be kept on emergency response vehicles and will aid in saving pet lives following structural fires. Bryan Cook, CEO of Elmira Pet Products and District Chief of the local volunteer fire service says “Our pets are an essential part of families; as pet parents we want nothing but the best for them. We want first responders to have the tools necessary to help all members of the family.”
